TVA ATTORNEYS REFUSED TO LET CHAIRMAN TALK

Norris Makes Charge in Senate Attacks on A. E. Morgan Today

Washington, March 8.—(AP)—Senator Norris told the senate today that TVA attorneys declined to let Chairman A. E. Morgan testify in a recent federal court suit against the power agency because they were "worried" that "he would throw the case."

Norris, who fathered TVA, said earlier that Morgan was "moved by intense jealousy" that "went beyond reason," in his feud with other TVA directors.

The court case to which Norris referred involved a plea by 19 private power companies for an injunction against the TVA. A three-judge federal court at Knoxville ruled recently in favor of the power agency.

"The TVA attorneys were worried more about Dr. Morgan and the possibility that he would throw the case than anything else," the Nebraska senator declared.

"They refused to let him testify. Mr. (James) Fly, (TVA counsel) said that he might interfere with witnesses."

"There is nothing in that case to Dr. Morgan's credit," Norris added, referring to a recent statement by the TVA chairman that he had rendered TVA "assistance" in the case.

Taking the floor to comment on the controversy between Chairman Morgan and the other two TVA directors, Norris said he had been "shocked beyond expression" when he began to observe Morgan's growing jealousy of the other two TVA directors—H. A. Morgan and David E. Lilienthal.

"When jealousy, that green-eyed monster, gets possession of a human heart, it is not long until it has control of the human intellect," Norris declared.

Two More Developments
Other developments of the day concerning TVA were:

(1) Lilienthal outlined for public utility companies a five-point basis on which he would negotiate for the purchase of properties in southeastern states.

(2) Representative McLean (R-NJ) notified the house he had introduced a resolution to remove from office all three TVA directors.

Norris in his address to the Senate, said that when Lilienthal's term was about to expire in 1936, Chairman Morgan visited him and asserted he would resign if Lilienthal were reappointed.

"I was dumbfounded," the senator related. "I was shocked beyond expression at the violence of Dr. Morgan's feeling toward his associates."

Aid to Critics
Norris said Morgan referred to his fellow director in "language and epithets I would not repeat."

The veteran Nebraskan also told the senate that critics had taken advantage of the split in the TVA board to disseminate "propaganda" against the agency.

Speaking in slow, almost-sororistic tones, Norris recited that "unfortunate differences have arisen within the TVA itself which have resulted in a bitter dispute between two factions."

He was "moved," he asserted, "to discuss the TVA situation because of the widespread publication of various charges of all kinds that are being made in the press."

The press, Norris said, "has as a rule always been unfriendly to the TVA."

The Nebraskan said he had spent "many a sleepless night" attempting to find a "concrete" reason for Chairman Morgan's attitude toward Lilienthal, but was unable.

AMERICANS KNIGHTED
Vatican City, March 8.—(AP)—A Vatican City news service announced today that Pope Pius had made J. P. Morgan and Thomas W. Lamont, of the Morgan banking house, Knights of St. Gregory the Great.

The decorations were conferred December 16, the news service said, and will be published formally in this month's ACTA Apostolica.

Man, 30, At Tavern Bar Shot By Foes
Chicago, March 8.—(AP)—William Ahr, 30, was standing at the bar in a tavern on the west side last night when a fusillade of shots were fired through the front windows. One of the bullets struck him in the right ankle.

Witnesses told police the shots were fired from a passing automobile. Joseph Naponiello, the owner, said he knew of no reason for the attack.

Unwelcome

Chicago, March 8.—(AP)—An uninvited guest won the pot in the poker game at the Roy Peterson home.

Peterson and four men and three women were playing a friendly game last night when someone knocked at the door. The host opened the door and was confronted by a man armed with a pistol.

"Here's the kitty, folks," the intruder cheerfully, extending his overcoat pocket. The players dropped about \$175 in the pocket. That ruined the evening for everyone except the unwelcome visitor.

BOY WEIGHING 19-LBS. BORN IN DETROIT

Detroit, March 8.—(AP)—A 19-pound boy, measuring 24 inches at birth yesterday, was the marvel of Detroit today.

Although hospital attendants said babies have been born weighing 25 pounds none so far are on record in this vicinity and at least one physician, told of the occurrence, exclaimed:

"I don't believe it."

The 36-year-old mother, Mrs. Mary Lawler, murmured when she was told how much the baby weighed:

"You must be kidding me."

The father, John C. Lawler, an unemployed auto factory worker, greeted friends and well wishers happily despite his economic burden.

There are five other children ranging from 2 to 17 years old. Eight-year-old Bobby Lawler, regaled by a caller with a few fabulous yarns in the Michigan lumbering tradition, observed proudly to the world in general:

"I'll bet my brother grows up to be as big as Paul Bunyan."

CUBAN TROOPS RAID ASSEMBLY IN CAVE, KILL 4

Havana, March 8.—(AP)—Four persons were killed in a night raid on a political assembly in a secret cave near here, and today there was speculation whether a plot had been discovered against the life of Cuba's strong man, Col. Fulgencio Batista.

One army sergeant was wounded in the bitter gun battle when troops surprised the cave conference, which government officials said included soldiers, sailors and civilians plotting against the government and its military leaders.

The dead were two civilians and two non-commissioned navy officers.

The cave in which the meeting was held is at Cojimar, small port two non-commissioned navy officers and near Cabana fortress.

Army headquarters said they had known for some weeks of activity by the asserted conspirators, but details of the plotting were not made known.

Colonel Batista, head of the army and the Cuban police, who fought his way to power in the 1933 revolt, had no direct comment today but he announced an army intelligence service report would "show the activities of important political leaders and the charges against them."

Police believe the body entered the turbine after being borne for half a mile on a stream of water which rushes through a dark tunnel under this city.

Emes said a post mortem examination showed that the woman had not been drowned and that there were bruises on both thighs which had been made before death.

The body, clothed in a black woolen dress, was discovered yesterday when plant workmen dismantled the turbine, a huge water wheel, for a routine cleaning operation.

SALARY PUBLICITY GIVEN TENTATIVE REFUSAL IN HOUSE

Teller Vote Is 118 To 60 Against The Provision

Washington, March 8.—(AP)—The House tentatively refused today to insert in the tax bill a provision for publicity for all corporation salaries in excess of \$15,000 a year. The standing vote was 85 to 48 and a teller vote was 118 to 60 against the provision.

President Roosevelt told his press conference recently he was in favor of such salary publicity.

The House previously had turned down an amendment designed to give a tax deduction for money used by corporations to pay debts.

The standing vote was 120 to 50. The amendment was offered by Representative Wadsworth (R-NY) who said its purpose was to "lift from the payment of debt the curse that is now placed upon it."

Applying only to corporations with incomes of more than \$25,000 which would pay a proposed 16 to 20 percent tax under the bill, the proposal would let the firms reduce the rate by 4 percent of amounts used or set aside irrevocably to pay debts incurred prior to June 22, 1936.

Lightning fired a Pasadena home during the night and extinguished the light in an Altadena residence, but damage was slight.

Heavy hail struck Redondo Beach after an electrical display. Rain was reported from Santa Barbara to Newport Beach.

The weather bureau's forecast of local showers indicated rain today would be of short duration, however, and engineers said flood control dams could handle average precipitation.

A 30-mile hike over soggy, slippery trails and perilous crossing of the flooded San Gabriel River lay ahead of rescuers in attempts to remove Mrs. Ethel Helen Troy, wife of the governor of Alaska, to medical attention.

Supplies by Plane
The 52-year-old woman, her condition made extremely serious by exposure in last week's deluge, was reported at a forest ranger's station in Upper San Gabriel canyon.

Medical supplies were dropped from an airplane yesterday by Mrs. Troy's physician and friend, Dr. E. R. Lambertson.

Mrs. Troy was visiting friends at a mountain cabin.

To keep from being swept away in the flood, she clung to a rock and later spent a night in a cave, Dr. Lambertson said.

Estimates of damage done to private and public property by the disastrous floods of last week fluctuated around \$65,000,000. The casualty list read: 69 identified dead, 17 unidentified dead, 88 persons missing.

PLANE HUNT CONTINUES
Fresno, Calif., March 8.—(AP)—The hunt for a giant airliner and its nine occupants, missing a week in the snow-blanketed high Sierra country, was pushed today on two widely-separated fronts where residents reported sighting a storm-buffed plane last Tuesday.

Planes here awaited lifting of storm clouds to search the Bass Lake region, 45 miles northeast, where two residents said they saw a large ship about 9:30 P. M., Tuesday.

Ninety miles north of here, Sheriff Joe Zwinge of Calaveras county prepared to lead a searching party into the Blue Mountain section, where 20 persons have said they saw a big plane between 9:45 and 10 P. M., Tuesday.

Niagara Turbine
Believed Slain

Niagara Falls, N. Y., March 8.—(AP)—Coroner Harry R. Emes said today there was a "possibility of foul play" behind the discovery of a woman's body in one of the gigantic Niagara Falls power turbines.

Police believe the body entered the turbine after being borne for half a mile on a stream of water which rushes through a dark tunnel under this city.

Emes said a post mortem examination showed that the woman had not been drowned and that there were bruises on both thighs which had been made before death.

Hail, Lightning Usher In New Storm to Plague California's Flood Area

Dams Expected To Control Added Rain Today

Los Angeles, March 8.—(AP)—Hail and lightning ushered in a new storm today as rain-plagued Southern California struggled to bring order out of last week's flood chaos.

Lightning fired a Pasadena home during the night and extinguished the light in an Altadena residence, but damage was slight.

Heavy hail struck Redondo Beach after an electrical display. Rain was reported from Santa Barbara to Newport Beach.

Poor Guess

Fred Fornier of Los Angeles, Calif., used poor judgment in his selection of a car to race from Dixon to Sterling last night for State Officer Edward Mahan was the driver of the challenged car and overtook the California speedster in the business district of Sterling, where he placed him under arrest. Taken before Judge Mitchell, Fornier was assessed a fine of \$10 and costs for speeding on a state highway and paid the amount which totaled \$16.40.

Officer Mahan observed Fornier drive through the traffic light at North Peoria avenue and Everett street in Dixon and started in pursuit. Fornier set a pace of about 75 miles which continued to the business district of Sterling where he was overtaken.

DANIELSEN IS
TOLD OF GRAND
JURY CHARGES

Chicago, March 8.—(AP)—Trembling and near hysteria, 16-year-old Theodore Danielson, Jr., learned today that a true bill charging him with murdering his mother was voted by the grand jury.

The high school sophomore, arrested after his 47-year-old mother was found stabbed to death, was expected to be arraigned tomorrow.

Assistant State's Attorney Morris G. Meyers reiterated the state would not ask the death penalty. If convicted on a murder charge, young Danielson would face 14 years to life in prison. True bills charging murder usually contain a manslaughter count, however, under which the sentence may be one to 14 years.

The youth has confessed, Meyers said, to killing his mother with a bread-knife Thursday when she scolded him for playing hooky from school and for misleading her about the grades he received.

DRIVE AGAINST
IRRESPONSIBLE
UNIONS ADVISED

Washington, March 8.—(AP)—Senate committee investigators made public today a letter to which members of the National Association of Manufacturers were advised of a campaign against "irresponsible labor unions, the closed shop and the check-off."

The letter, by Walter B. Weisenburger, executive secretary of the association, was placed in the record of the Senate civil liberties committee. It said "members of the employment relations committee felt very strongly at their meeting last week that a continuous active campaign should be carried on to bring to the country facts about irresponsible labor unions, the closed shop, and the check-off."

"The officers of the association have directed that we pay particular attention to the labor movement at this time (June 1, 1937)," the letter said, "and we are attempting to put our battle ahead on the closed shop and check-off issues before they become a public part of the organization movement."

Weisenburger told the committee the campaign was "not against unionism but union abuses."

Chairman La Follette (Prog-Wis) put in the committee record a copy of a Chicago Tribune article of March 7, 1937, headed, "See CIO Drive as Communistic in Its Objects."

Weisenburger said the association made 135,000 reprints of the article and distributed them "generally."

News of Interest to Community Farmers

First of March Brings Moving Week for Many Farmers in This Area

Activities Halted While Changes Are Made

Nearly all farm activity for the past week has been centered on one job—spring moving. With the first of March many of the rural meetings and much of the rural life is halted temporarily while many of the farmers pack everything and change location. This year the weatherman gave the movers two fine days, Monday and Tuesday, to accomplish this annual exodus and it is reported that there were more changes this year than last, due to the number was about normal.

Listed below are many of the changes included in this year's moving:

The Nathan Swords have moved to the Mrs. A. O. Jordan residence. The Theodore Swords have moved to Franklin Grove.

Berry Williams will move to the Sudbury farm north of Ashton, and the Sudbury family has moved to the Andrew Reinhart property in the southeast part of that city.

Russell Gatz, who farmed for Willard Webb, moved to the Ray Hammer tenant house vacated by Glenn James who moved to a farm near Oregon.

Mr. and Mrs. Kinney of Peoria have moved to the Emma Matern farm.

Mr. and Mrs. Harry Babbitt have moved to a farm near Stillman Valley.

Frank Gleim and family have moved to Dixon.

William Walker and family moved Friday to the farm of Miss Nellie Williams at Daysville. Mr. and Mrs. J. S. Hughes moved to the Lowden farm which the Walkers vacated.

Mr. and Mrs. Martin Unger have moved from the Miss Emma Matern farm to the vacated residence near Walter Morgan in Franklin Grove.

Mr. and Mrs. Evert Jacobs have moved from the Mrs. Margaret Jacobs farm to the A. Van Hettinga farm in Pine Rock township of Ogle county. The Jacobs farm has recently been sold to her son Simon who expects to make his home there in the near future.

Mr. and Mrs. John Hawbaker have moved from the Ray Willard tenant house to the Pfeiffer brothers place west of Paw Paw.

Mr. and Mrs. Will Bruser have moved to the Junia Gilbert farm. Stanley Graham and family of Iowa have moved into the tenant house of the Ray Willard place and will work for him the coming season.

Harold Gilbert has moved from the Howard Dennis tenant house to the property in Woosung owned by the Clara Beck estate.

John Cunningham has moved to a farm he recently purchased north of Polo.

William Brockwell has moved to the house vacated by Harold Gilbert.

Andrew Johnson has moved from the Roy Slater tenant house to a farm near Shannon.

Harry Folk has changed to the Aie Temple farm.

Edward Minnier is now in the house vacated by the Johnsons and the John Binkley from Byron has moved to the farm vacated by the Roy Slaters.

Charles Kersten will move from his place on the Lincoln highway

to the Bony Bly farm west of where Edward Kersten lives.

Mr. and Mrs. Al Menzimer have moved from the Luce farm near Amboy to Dixon route 3.

The Albert Ehmen family of near Oregon will occupy the Charters & Klingebiel farm in Bradford township.

Mr. and Mrs. Benny Johnson and family moved on a farm near Ohio.

The Lars Tastad family has moved to the Taylor farm south-west of Rochelle.

The Amos Whites moved to the Mrs. A. J. Degner farm in the fall which they will farm this year.

Mr. and Mrs. Albert Bohn have moved to a farm west of Amboy. Mr. and Mrs. Dewey of near Franklin Grove are moving to the farm vacated by them.

Mr. and Mrs. Franks and family have moved to the Fell farm vacated by D. Newman and family.

Mr. and Mrs. Albert Schaefer have moved to the Mr. and Mrs. Edward Klenke farm, and the Chris Klenke family who have been living on this farm will make their home on the Killmer farm owned by Otto Schade.

Max Plum has moved from the George Boddiger farm to the Bowers farm near Brookville.

Allen Bennett has moved to the George Boddiger farm.

John Travis and family have moved from the Fred Stahler farm to the Ralph Ports farm, and Earl Phillip to the Stahler farm.

Lloyd Richardson and family have moved to the Harry Adams tenant house.

Hunter Ruble has moved from the Tavenner farm to the Stuffs farm and Ralph Colliflower has

Crowding Chicks Does Not Add To Poultry Profits

The poultryman who overcrowds his brooder house is likely to be penalized with sick chicks and with birds that are underweight at market time.

H. L. Shrader, poultry husbandman of the United States Department of Agriculture, recommends at least 50 square feet in brooder houses for each 100 chicks. A brooder house 12 by 14 feet will care for about 300 baby chicks, but not for many weeks if the chicks are kept confined.

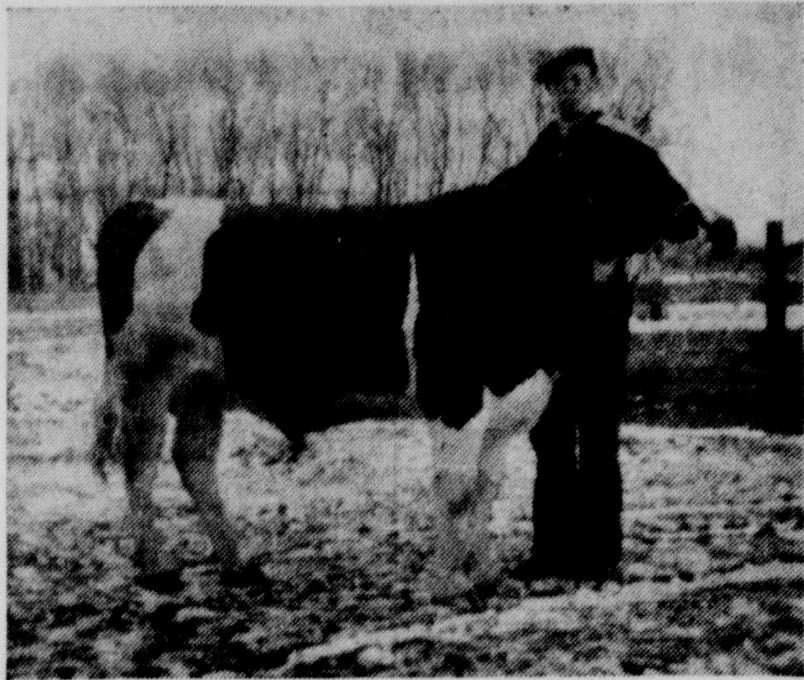

If the young birds have range, such a house with plenty of roosts added will care for the flock for the first 3 months. Or, if the pullets are removed to range early in the season the house will be about the right size to care for the cockerels until they are ready to market as broilers.

Mr. Shrader quotes with approval a veteran poultryman who says that he can raise only about 30 many pounds of chicken in a brooder house of a given size. If he crowds in a few extra chicks, there is sickness enough to reduce the flock to the number that could have been sheltered adequately to begin with. Or if he manages to escape the "dead loss" from disease the young birds do not develop so rapidly as in an uncrowded flock.

The result is that the product of the number of chicks and the average weight per chick is about the same in the uncrowded house as in the crowded quarters. The Charles Kersten will move from his place on the Lincoln highway

and the cost of their feed is wasted.

Wilbur Klenke, sophomore student of Ashton high school, is here shown with his first prize bull calf of the black and white show held in Dixon last summer. This calf also placed third at the Dixon Horse Show and fourth in the Vocational Fair at Oregon. In addition to the bull, Wilbur showed two purebred heifers. His yearling heifer placed fourth at all fairs entered while his heifer calf placed fourth at Oregon, seventh at Dixon and tenth at Amboy. A total of \$27.00 was won in the dairy classes of the various fairs by Wilbur in his first year's efforts in exhibiting his dairy cattle.

Farmers have been very busy in this vicinity this winter. A drive around the county will prove this fact. New buildings have been constructed or repaired and some painting has been done. Trees have been cut and made into firewood, fence posts have been made, corn shelled and many other winter jobs completed.

A group of farmers from the vicinity of Polo motored to West Allis, Wis., Thursday, Feb. 24 where they visited the factory of the Allis Chalmers company. Those who made the trip were Maynard Wisner, Wayne Mayborn, James Mayborn, Newt McInlay, Leroy McInlay, David Weber, Elwyn Gilbert, Charles Oyler, Everett Baker, Merritt Stoner and Bill Graehling, Jr.

The idea of a cold storage locker plant for Paw Paw has begun to take form. A meeting was held in the Community club rooms to discuss the matter. About 50 interested men were present from four different townships in the vicinity and from the village. The proposition was explained to them in detail by Farm Adviser C. E. Yale, who has become an authority on cold storage locker plants and their operation.

WINNERS OF 4-H HOLSTEIN CLUB HAVE BUSY TIME

Illinois Champion Boy and Girl Have Full Schedules

The Holstein-Friesian Association of America recently selected Opal Hetzer of Montrose, Effingham county, as the Illinois State Champion 4-H Holstein club girl for 1937, and Arnold Wittmus of Alden, McHenry county, as the Illinois State Champion 4-H Holstein club boy for 1937. The awards were announced at the state convention held here last month at which time Arnold received his trophy. Miss Hetzer was not able to attend.

Opal Hetzer began her 4-H club work in 1934 with a Holstein calf as her project. Since then she has exhibited her Holstein animals at the various county, district, and state fairs each year and has also taken part in five judging contests and five style revue contests. In 1937 she was picked as a clothing champion of the state of Illinois. In addition to her four years of work with the dairy project she has completed two years in the clothing project and one year in the health project.

Opal has attended all but two of the meetings of her local dairy club since she started 4-H work and has held an office each year. She served her club as secretary during the year 1937. Opal has also been an active member of a clothing club and of the Walther League.

Plan Conference For Rural Youth On March 18-19

Five Rural Youth members and the home adviser, attended the conference planning meeting conducted by Miss Wilma Lucas, Whiteside county home adviser, on Thursday, February 24, in Morrison. It was decided to have the conference on March 18 and 19 in Morrison, with a banquet at 6:30 P. M. on Saturday. Discussion, recreation, and the training of officers were the subjects that the group thought most suitable for this conference. These subjects were to be so arranged that all three might be attended by a member if he so desires. All Rural Youth members are invited to attend this conference.

Lee, Ogle and Whiteside counties were represented by twelve rural youth members. Those present from Lee county were: George Thier, Carl Boehle, Bertha Ackland, Jefferson Ackland, Doris Boehle, and Elizabeth Colean.

1937 STATE CORN YIELD IS HIGHEST IN U. S. PER ACRE

Springfield, Ill., March 8—(AP)—A. J. Surratt, federal agricultural statistician, has said that the 1937 Illinois corn yield of 47 bushels an acre was the highest in the United States.

Reports from the 48 states showed, Surratt said, that Pennsylvania ranked second with 46 bushels and Iowa and Indiana tied for third place with 45 bushels.

Illinois total crop of 444,197,000 bushels last year was topped only by the 503,505,000 bushel Iowa crop. However, 11,189,000 acres were planted in Iowa, compared with 9,451,000 in Illinois.

"Illinois had an amazingly high yield last year," Surratt said, "but while it is greatly above that of any previous year, I think the future, with the growing use of hybrid corn, is going to bring still higher yields."

The previous high in Illinois was 43 bushels in 1932.

John M. Lowery, chief grain inspector of the state agriculture department, said an examination of that part of the 1937 crop which has reached the Chicago terminal market shows the volume and uniform quality of the corn was the best in several years.

Opal Hetzer began her 4-H club work in 1934 with a Holstein calf as her project. Since then she has exhibited her Holstein animals at the various county, district, and state fairs each year and has also taken part in five judging contests and five style revue contests. WEED AND INSECT CONTROL STUDIED AT FARM SESSION

Erosion and Testing Of Soil Subject For Next Meeting

"Weeds and Insects and Their Control" was the subject of the class for adult farmers held last night at the high school under the direction of J. N. Weiss, faculty member.

Introducing the subject, Mr. Weiss pointed out that state laws have been passed to rid the countryside of weeds and that it has been estimated that weeds take an average toll of two dollars per acre from the income of the farmer. By law August 8-22 have been set aside as days for cleaning up weeds in the state as part of the farm program.

The ways in which weeds cause a loss to the farmer were studied and it was brought out that they reduce the amount of moisture available for crops, remove plant food from the soil, smother or crowd crops so as to limit yields, shade crops and increase the labor required to grow crops.

The ways to prevent these weeds were listed and the following methods suggested: Never let weeds go to seed, prepare seed bed so crop can grow rapidly, kill weeds before planting crop, early fall plowing and guarding against such carriers as water, wind and animals. Careful watch on public carriers, such as railroads, threshing machines, purchased hay and straw, was also mentioned as a way to prevent spreading.

Methods of Control

In studying the methods of control of the various types of weeds, annual, biennial and perennial, were examined. Annuals and biennials may best be controlled by moving and not allowing the weeds to go to seed, but the problem of the perennial becomes the most difficult.

Those present last night declared that their greatest problems come from Canada thistle and quack grass. Attempts to get rid of these types of weeds by thorough cultivation of crop, smothering the weeds with alfalfa or soybeans, hoeing the patch of thistles each week and use of sulphuric acid, crankcase oil and sodium chlorate were mentioned.

The Iowa station has experimented with the use of sodium chlorate and while it remains a dangerous and expensive method, it has been recommended that the chemical compound be used at the rate of one and a half pounds to one gallon of water and 150 gallons to the acre. Because the average price is around 12 cents a pound, the method becomes somewhat expensive.

Insects and Control

Insects and their control were only briefly discussed at last night's meeting. Mr. Weiss pointed out the life cycle of the chinch bug and declared that there is hope this year that the infestation will be light. The condition most favorable to the infestation of the insect is a dry spring, as in 1934, when the bugs begin to migrate into the small grain fields. Methods of control suggested were: burning the infested area, planting corn resistant to the bugs and field barriers. Grasshoppers may be controlled at this season of the year by finding their places of hibernation and killing the eggs with poison.

The subject for the next meeting will be "Soil Erosion and Soil Testing."

Announce Cast For High School Show

"Tune In," an operetta with an amusing story and many catchy tunes, will be given at the auditorium of Dixon high school Friday night at 8:15 o'clock. The cast and chorus are members of the high school glee clubs, with Miss Carolyn Bergstedt as director.

The musical comedy concerns the trials and tribulations of a radio station. Kasper Kroggins and his advertising manager, Jerry Kennedy, decide to start a radio program telling the world all about Kroggins' Kippered Kodfish. If Joe Brown, operator of WTNT succeeds in getting their contract, he will be able to keep up his payments on the station which he would otherwise lose to Phipps, the former owner.

When it is revealed that "Mitzi," the Mystery Soprano, the star of the Kroggins program, is Mrs. Kroggins, who has much more ambition than talent, Jerry and Banks, an announcer, try to keep her off the air. Binks pushes Mrs. Kroggins into an elevator and stalls it between floors, while the WTNT telephone operator, whose name really is "Mitzi," sings in her place. Mrs. Kroggins escapes and to pacify her, they let her sing into a dead microphone. The ruse is revealed, and in her wrath Mrs. Kroggins orders Jerry discharged. Jerry refuses to sign a contract, and Phipps arrives to tell Joe to pay up or else. Jean is angry at Joe for humiliating her mother, and Mitzi gives Jerry "the cold shoulder."

During Mrs. Kroggins' New Year masquerade at the WTNT studios, Phipps offers Joe a clean title to the station in return of the contract to the singer on the Kroggins program. Since Phipps believes Mrs. Kroggins is the singer, he insists that she is the "Mitzi" he wants. After he hears her voice, he destroys the contract and offers another one to the real Mitzi who accepts. Finally Throckmorton, who has been unsuccessfully trying to see Joe, brings the news that Joe has inherited a large estate including the patent rights to the process of kipping kodfish. Of course, with the situation reversed, all ends happily.

The cast for the operetta, "Tune In," is as follows:
Kasper Kroggins, the Kodfish King—Lawrence Palmer.
Mrs. Kroggins, his Ambitious Wife—Lois Grimes.
Jean Kroggins, Their Daughter—Helen Rhodes.

Joe Brown, Owner of Radio Station WTNT—John Moore.
Jerry Kennedy, Advertising Manager of the Kroggins Kippered Kodfish Co.—Paul Marth.

Tilly, Milly, Billy, a Sister Team at WTNT—Rita Bennett, Harriet Weyant, Wanda Walder.

Mitzi, the Switchboard Operator—Jeanette Nettz.
Bob, Engineer in Charge of Control Room—Robert Hoffman.

J. Bottomly Binks, an Announcer at WTNT—Tom Richards.
Archibald Throckmorton, Who Would "like to see Mr. Brown"—Earl Slagle.

Lysander Phipps, a Theatrical Producer—Hollis Brenner.
Chorus of radio stars, engineers, continuity writers, announcers, production men, gypsies, studio guests, etc.

GAP GROVE P. T. A. TO MEET THURSDAY
The Gap Grove P. T. A. will meet Thursday evening at 8:00 o'clock at the Palmyra Town hall.

Meeting at Nachusa Held Friday Evening

A meeting of the Nachusa P. T. A. was held Friday evening at the school house at 8 o'clock. The meeting was opened by singing several songs.

Reports were given and approved and the record of the executive committee was read. The chairman of the standing committees presented reports and the by-laws of the association were read by the secretary.

Mrs. Burstfield of Dixon gave an interesting health talk and Carrie Carter spoke on safety.

The program of the evening consisted of music by the Murray family including songs by Miss Jean Brooks, Miss Loretta Murray and Miss Beulah Murray.

J. L. Glassburn and Mr. Wolf of Dixon presented several interesting moving pictures dealing with safety and the manufacture of new cars.

The meeting was adjourned and a social hour was enjoyed during which refreshments were served.

St. Anne's Church Guild To Present Concert On Sunday

Much interest is being shown in the approaching concert given by Stella Westen Berger of Springfield, under the auspices of St. Anne's Church Guild next Sunday afternoon at 4 o'clock.

Mrs. Westen Berger has appeared as soloist in Chicago on numerous occasions, appearing at the Three Arts club, The Cordon club and the Press club, and with the Little Symphony orchestra. She also presented three programs at the Century of Progress.

An added attraction for the concert and one of which the parishioners are justly proud is the installation of an electric Hammond organ in the church.

Atty. Morey Pires Addressed Meeting Of D. A. R. Chapter

Dixon chapter, Daughters of the American Revolution, met Saturday afternoon, March 5, with the Misses Armington.

The business session was presided over by the Regent, Mrs. H. M. Price, and officers and chairmen of committees gave the monthly reports. Miss Jennie Laing read the D. A. R. welcome to six new members who were present. Mrs. W. G. Murray read resolutions in memory of the late Miss Laura Murphy, a charter member of Dixon chapter.

Mrs. F. J. Trautwein introduced the guest speaker of the afternoon, Atty. Morey Pires, who took as the subject of his address, "The Alien." Attorney Pires is an able and brilliant speaker, and in an interesting and informative manner discussed the naturalization laws, methods and causes of deportation of aliens from the United States, and quotas allowed entrance from foreign countries. He illustrated his theme with examples of well-known cases reported in the newspapers, and with cases actually contacted by himself.

Attorney Pires' address was given in an unbiased manner, and would be of great interest to any group of patriotic citizens.

During the social hour, which concluded the afternoon, tea was served, Mrs. H. C. Warner and Mrs. W. G. Murray pouring.

IN SOUTH AMERICA

Mr. and Mrs. James Hobbins and daughter Miss Mary sailed from New York on February 26 for South America. They will be joined in Antofagasta, Chile, by Mr. and Mrs. Walter Saunders and together they will visit Portorillo, Santiago and other points of interest and will inspect the properties of the Anaconda Mining company of which Mr. Hobbins is vice president. Mrs. Saunders and Mrs. Hobbins are daughters of Mrs. Alice Beede. They

have visited in Dixon frequently where they have many friends. The Hobbins family will sail for New York April 8.

THE MacDONALD CLAN

England's MacDonald family has a habit of keeping quietly and efficiently in the country's foreground and service. Ishbel, who as hostess for her famous father was best known of the premier's four children, hasn't retired the family just because she married a village handyman and will devote her life to running a rural inn.

Her brother, Malcolm, at 36 is dominions secretary and is adding luster to the famous family name by his negotiations for a trade and defense agreement between Great Britain and Ireland. As undersecretary, Malcolm refused to cash his \$7500 yearly salary check because his father was head of the government.

And now the youngest of the MacDonald clan, Sheila, has launched a modest career in politics by obtaining a job as police probation officer. If she follows through in the usual family fashion she is liable to end up with quite a voice in the island's affairs. Her father started the same way.

TAX ON HEAT

Congress is entertaining a proposal to impose a tax of 1 cent a gallon on fuel oil used for heating residences, factories and apartments and for generating power. The sponsor announces that the purpose of the measure is to provide federal revenue, conserve petroleum resources, and discourage the use of oil for fuel.

If enacted into law, the measure would provide 170 million dollars a year revenue for the government, an inconsiderable sum as compared to the vast amounts being squandered. But still it is a sum of money, and political appointees scorn not the gleanings. Furthermore, it might pave the way for an additional cent a gallon, or 2 cents a gallon more, when the time comes to collect for the present financial jag.

If we are going to dance we must pay the fiddler, and a cent extracted as a tax on fuel oil is no more painful to part with than a cent levied on shoes, sealing wax or cabbages. Tax spenders have not by any means exhausted their resources. Time was, overseas, when the tax gatherers found it advisable to tax windows, so that many of the poor built their residences without windows. It was found necessary to impose taxes upon salt placed in the barnyard for the benefit of livestock, and the peasants then neglected to salt their stock. Faced with this situation the tax gatherers enacted laws against permitting cattle to go without salt. To this measure the farmers replied, in part by failing to raise cattle.

Who remembers the "farmers" and the "farmer general" of France, who threw some time before the outraged populace decided upon a drastic change? These officials were appointed by the crown to collect taxes—so much from each district. It mattered not how the taxes were collected, if only the tax farmer turned in the prescribed amount. If the farmer could collect more than the amount demanded by the crown, it was so much gravy for him and he usually made the most of his opportunities.

So we shall not worry about a cent a gallon on fuel oil. The New Deal has barely scratched the surface of its resources.

ENGLAND HAS A LEVER TO PRY WITH AT LAST

It may not be too apparent at first glance, but Germany's thrust at Austria might turn out to be the brightest hope for world peace in many months.

Most important is the wedge such a move gave Great Britain into the Rome-Berlin (and Tokyo, if you wish) combine. The opening must have been the answer to an English diplomatic prayer. For Germany's annexation, usurpation, or dominance, as you will, of Austria is a definite threat to Italy and to Mussolini's plans for a place among the world's leaders. With Germany dominating Central Europe, Mussolini has his choice of becoming another tail to the Reichstag kite or of breaking with Adolf Hitler. Knowing Il Duce's ambitions, it isn't possible to picture him just as a part of Hitler's jigsaw puzzle.

England gave up Anthony Eden as a sacrifice to the Italian pride, and the sudden Italo-British amiability looks like the beginning of the end for the Rome-Berlin axis. What will happen if Hitler carries out his threat to take over Czechoslovakia is something else to consider, but it looks now like a safe bet that Mussolini won't be an ally, whatever other course he may choose for Italy.

Mussolini wants primarily to become a Mediterranean power right up there with England and France. He can never achieve that aim by clinging to Germany in the present Central European tangle. For Mediterranean equality he has shown signs of being willing to relinquish certain Spanish advantages which are merely potentialities anyway. Of course, how long Mussolini would be willing to keep hands off Spain after his diplomatic and Mediterranean aims were realized is another problem but at least the Spanish war might be ended if Italian troops were withdrawn.

Germany, with Italy gone, would find herself with a few half-hearted Central European allies and Japan. Whether Hitler and the German people would want to

put enough faith in Japan's friendship and dependability to cling to a Berlin-Tokio alliance seems dubious. For one thing, each nation feels it is a chosen people. Two chosen peoples wouldn't get along very well, and there is always the racial angle to consider.

So Germany might find herself forced into an agreement with England and France in spite of herself. Which would leave Japan facing a united disapproval, or perhaps that's too idealistic.

All of which would leave the United States sitting over here amazed and a little confused, as we always seem to be at the machinations of intricate internationalism. We wouldn't have a finger in the pie anywhere, because we've been sitting back hating people—especially dictatorships. But it would be peace, and peace by any road looks good.

'Unfriendly'

Lyons Says President Is Antagonistic to Business

LaSalle, Ill., March 8—(AP)—

Richard J. Lyons, Republican senatorial candidate, was joined by his running mates on the G. O. P. state ticket today in accusing the Roosevelt administration of being unfriendly toward business.

Simon E. Lantz of Congerville and Frederick A. Virkus of LaGrange, candidates for Congressmen-at-Large, both charged the President with broken promises after Lyons repeated his contention that present Federal taxes were "highly instrumental in paralyzing business and accentuating unemployment."

Virkus, a publisher calling himself a "small business man," declared all the country's problems could be summed up in one word—"jobs."

"The first thing we can do to create jobs is to let business alone," he said. "If the government will adopt a clear-cut, definite program for business to follow so business may know what to expect, and if government will reverse itself on 'cracking down' and will modify punitive taxation, business will forge ahead and wipe out unemployment."

Federal Debt Mounts

Lantz declared the Federal debt had mounted to \$38,000,000,000 "despite the President's campaign promise to cut government costs 25 per cent."

After a morning meeting here, the Republican state candidates endorsed by the party county chairmen and state central committee moved to Joliet for an afternoon rally for Will, Kankakee, Iroquois, DuPage, Kendall and Grundy counties.

Lyons spoke at Woodstock, yesterday. He discussed Federal taxes, spending and "New Deal attacks on business."

At Jacksonville, U. S. District Attorney Michael L. Igoe, Chicago, seeking the Democratic nomination for U. S. Senator, urged Democrats to guard against dissent within the party. He said the Horner forces and Congressman Scott W. Lucas, his primary opponent, were appealing to prejudice against Cook county.

Smith at Joliet

The United States attorney was accompanied on his first day's campaign tour by State Treasurer John C. Martin, candidate for Congressman-at-Large, and John A. Wieland, candidate for Superintendent of Public Instruction to succeed himself.

In a campaign address at Joliet last night, Senator T. V. Smith, Chicago, Horner-state candidate for Congressman-at-Large, said the primary issue was "Leadership versus Bossisms."

Smith denounced Mayor Edward J. Kelly of Chicago in the Horner ticket's reply to the opening speech delivered at Springfield Saturday night by Igoe, endorsed by the Kelly-Nash organization.

"There's the real difference between us and our opponents: We are proud of our association with the great governor of this state. They are ashamed of the only organized backing they have, the Chicago machine."

On Trial Second Time For Poison Highball Murder

Chicago, March 8—(AP)—Corydon A. Black, 35, went on trial Monday for the second time on a charge of murder in connection with the "poison highball" death of his divorced wife.

Selection of a jury qualified to impose the death penalty was begun in criminal court before Judge Joseph Sabath.

Edwin C. Wilcox, Black's attorney, said the defense would contend, as at the first trial, that Mrs. Black took a poisoned drink knowingly in pursuit of a suicide pact with her husband.

Black previously was condemned to the electric chair but won a retrial on appeal to the Illinois Supreme Court.

This is an ideal season for the housewife to take inventory of her household equipment, from linens to cooking utensils. A real incentive to thrifty March shoppers is the special value in new aluminum ware, which leading department and hardware stores have been featuring through February and March.

At the end of 1935, the total capacity of all freight cars owned by Class 1 American railways amounted to 88,677,106 tons.

RADIO FANS SAY ALIEN PROGRAMS INTERFERING

Representations To State Department Bring Results

Washington, March 8—(AP)—

Government records disclose that the state department stands ready to "go to bat" for radio fans in Illinois or other states whose enjoyment of domestic programs may be hampered by foreign broadcasts.

This came last night when residents of Decatur, Ill., complained to Representative Rigney (D-Ill.) that a Cuban broadcasting station was interfering with their reception of programs broadcast from Chicago.

Rigney laid the case before Secretary Hull, who promptly replied that the matter was being brought to the attention of the Cuban authorities and that more details were being sought from the Chicago broadcasters.

Hull added that the Cuban authorities "have indicated their intention of taking such steps as may be necessary with a view to eliminating the interference."

The several Illinois congressmen who have asked Secretary Wallace to establish one of the new agriculture research laboratories in their state may have to wait a considerable time for the farm administrator's decision.

Wallace told Representative Dirksen (R-Ill.) in a letter that he was receiving a great mass of data and any number of suggestions to support the claims of interested parties that the new laboratories should be located in their states. Dirksen had suggested either the University of Illinois or the Peoria-Pekin area as ideal because of research facilities already established there and the possibilities for cooperation with the government laboratory.

"Since one and only one laboratory is to be established in each major producing area and the entire United States is to be considered in four major producing areas," Wallace said, "the department is deferring commitments until all facts can be most carefully considered."

TRADE TREATY WITH CZECHS IS SIGNED BY HULL

Washington, Mar. 8—(AP)—Innovations in the newly-signed trade treaty with Czechoslovakia, state department officials said today, place it among the most important of the 17 which Secretary Hull has negotiated.

"Probably no other country," the state department announced, "has gone as far as x x x in attempting to open the way for an expansion of trade by the removal of relaxation of special controls of imports."

Under the treaty, signed last night by Hull and Czech Minister Vladimir Hruban, tariff benefits will be granted on 767 per cent of Czech imports from the United States and on 55 per cent of American imports from Czechoslovakia. Trade between the two countries last year totaled \$74,680,000.

The controversial question of duties on cheap shoes was settled by fixing an upper limit on their introduction into the United States—a new feature in the treaty system.

Observers noted that the document was signed only a few hours after Secretary Hull said he would be happy to receive German proposals for better trade relations, if American principles of trade were accepted.

Germany denounced the most-favored-nation clause in her commercial treaty with the United States, and has been deprived of the benefits of American trade agreements with other countries.

Homemakers frequently ask how often an electric-driven sewing machine should be oiled. An engineer, who is an authority on the subject, states that it should be oiled every four or five hours that the machine is used. He says: "Oil the motor only as recommended by the maker or dealer. Do not attempt to clean the motor, or run it when there is gasoline in it, or on it. To do so may cause fire and ruin the motor."

Day by Day Lessons for Reading During Lenten Season

Read St. Mark 11:15-18.

And they came to Jerusalem: and Jesus went into the temple, and began to cast out them that sold and bought in the temple, and overthrew the tables of the money-changers, and the seats of them that sold doves; and would not suffer that any man should carry any vessel through the temple.

Our Lord never condemned the Jewish sacrificial system. He never condemned honest trade. But He did rebuke those who made God's holy house into a butcher shop, charged unfair prices, and only thought of what profit they were going to make out of it.

Our hearts must be houses of prayer before we can bring to His temple "holy offerings rich and rare." The lesson for us is quite plain. We must give all our attention, all the service of our heart to the performance of sacred duties in the place and time assigned. We have our work-day duties too; but we shall do these better if we lay them on the altar for a while and leave them. Within the house of God we have no duty but prayer and praise.

Exalt ye the Lord our God
And worship at His footstool:
Holy is He.

We have set for us in the Book of Common Prayer, a Table of Fasts including the Forty Days of Lent and all the Ember Days, "on which the Church requires such a measure of abstinence as is more especially suited to extraordinary acts and exercises of devotion."

ILLINOIS GAVE FERRIS WHEEL TO THE WORLD

Illinois gave the ferris wheel to the world. According to information obtained by the Federal Writers' Project, W. P. A., a native son of Galesburg invented and directed its construction. It is still remembered by thousands of persons as a main attraction at the World's Columbian Exposition at Chicago in 1893. George Washington Gale Ferris was a member of two pioneer families of Galesburg, descendants of which now reside in that city.

Notwithstanding the opinion of engineers who believed the wheel could not be operated even if it were built, Ferris found backers for his enterprise. The encouragement given by officials of steel companies who believed in the feasibility of the wheel was an important factor in carrying out the plans. It is said that officials of the Fair were amazed both when the wheel did operate, and when it returned a profit.

According to accounts, the total cost of the wheel was \$300,000, of which \$25,000 was spent on planning and \$12,000 on the wooden false work. The foundation, 40 feet deep, was laid in the winter months under serious handicaps. Because of the size of the job and the necessary haste, several steel plants divided the iron work. The pieces were so carefully checked for uniformity that they seemed to be the products of but one company. The giant axle weighed 70 tons.

The wheel, 270 feet in diameter, consisted of two huge rims with supporting spokes. Between these were suspended 36 cars, with seats for 40 persons in each one. As the wheel revolved, the cars reached a height of 238 feet, giving the passengers a fine view of the Exposition grounds, and a thrill to talk about when they returned to their homes.

AAA Assigns Soil Depleting Funds

Washington, March 8—(AP)—The Agricultural Adjustment Administration Monday assigned the north central region states tentative soil-depleting allotments under the new farm act.

The figures included goals already assigned for corn, a principal soil-depleting crop, and other crops in that classification. The AAA said the tentative figures would permit state committees to begin making county allotments.

Germany denounced the most-favored-nation clause in her commercial treaty with the United States, and has been deprived of the benefits of American trade agreements with other countries.

Answer to Question No. 1

1. An experiment on improving was made by M. G. Wight, Wayne university psychologist, on 47 crippled children. One half was given exercise for two months in beating time to music, dancing, etc., while the other half was untrained. The trained group improved over 18 per cent in rhythmic ability. Arthur Murray, dancing authority, says out of 50,000 persons he has trained to dance only two did not have sufficient natural rhythm to learn dancing. I still have hopes.

Answer to Question No. 2

2. Certainly. As Napoleon rode home alone from Waterloo he must have regretted he had not conquered his desire to conquer the world. Modern psychology offers no finer counsel for self development and the achievement of personal poise than that in the Bible. "He that ruleth his spirit is better than he that takes a city." Our little booklet, "Self-Confidence and How to Gain It" will help. Sent at cost—10 cents, plus a self-addressed stamped envelope.

Answer to Question No. 3

3. Dr. C. B. Davenport, biologist, got to looking through some family histories of 165 wayward girls in the files of the Eugenics Record Office and found the words "vile temper," "holy terror," "violent when angry," etc., occurred often in some families but not in others, and it seemed to be a dominant trait in heredity. That is one that does not usually skip a generation if one parent possesses it.

OLD DANCES TO RETURN?

Chicago, March 7—(AP)—President Pearl Allen told the Chicago association of dancing masters that dances of grandmothers' time may again be popular due to the current cycle of civil war books, stories and motion pictures. He predicted that even the polka, created in 1840, and the schottische may return.

Pictures now can be taken in absolute darkness, without even the aid of a flashlight.

PURDUE SETS NEW SCORING MARK; BIG TEN

Over 500 Points Per Season Last 3 Years In Row

Chicago, March 8.—(AP)—Purdue's "point a minute men" of the court have hung up a mark for consistent high scoring that Big Ten basketball teams long will be shooting at—more than 500 points a season for three consecutive campaigns.

The Big Ten champions who ended their season Saturday by winning their 10th game as against two defeats, scored 511 points this season, the exact number they tallied in 1937 when they finished fourth. In 1936, when they won the title with 11 victories and one defeat, they scored 503 points.

That's an average of 42.3 points a game for 36 straight contests in one of the toughest hardwood circuits in the country.

In Jewell Young, Purdue had one of the greatest shots ever produced at the Lafayette institution. He scored 60 free throw attempts for 184 points, a new all-conference season's scoring mark which bettered the record of 172 points he established in 1937.

Andres Second

Ernie Andres, brilliant Indiana guard who set a new single game Big Ten mark of 30 points late this season, wound up in second place for individual scoring honors with 162 points. The leader through most of the season, "Pick" Dehnner of Illinois, was third at 147.

Northwestern, which lost last night to Michigan, 20 to 22, emerged as tops in one department—accuracy from the free throw line. The Wildcats, making 89 charity points and missing 45, averaged .664.

In last night's final game, Michigan flashed the form which made the club a pre-season favorite, handing Northwestern a defeat which forced the Wildcats into a tie for third place with Ohio State.

Ponzi, Mosconi

Setting Pace In Billiards Meet

New York, March 8.—(AP)—Two Philadelphians, the veteran Andrew Ponzi and Willie Mosconi, are setting the pace in the world pocket billiards championship tournament with little indication that either intends to let down.

Ponzi took the lead with four straight wins Sunday. Mosconi joined him last night by defeating Joe Diehl of Rockford, Ill., 125 to 121, in one of the longest and tightest matches of the tournament, for his fourth triumph in as many starts.

The match went 31 innings with Diehl scoring a high run of 55. Mosconi's best cluster was 33.

HIGH SCORING ABC TOURNEY IS UNDERWAY

Tally of 3118, High Mark In New York Meet Last Year

Chicago, March 8.—(AP)—It took a score of 3,118 a year ago in New York to win the five-man team championship in the American Bowling Congress tournament. A 1,359 count won the doubles, 749 the singles and an all-time high of 2,070 was scored in the all-events.

The 38th annual A. B. C. championships, with 43 days to go on the 48-day trail also has some distance to go to reach these marks. But with all the favored teams and top individual stars yet to check in at the Coliseum, indications were that a high-scoring meet is under way.

On the Side

Bits of Gossip of Sports Picked Up By AP Writer

By EDDIE BRIETZ
New York, March 8.—(AP)—News reel shots of the baseballers warming up in Florida sure make you want to buy a sack of goobers and head for the Yankee Stadium.

Burligh Grimes' farm at New Haven, Mo., is reported for sale. Bo McMillin, Indiana's smart football coach, once starred for his Fort Worth high school football team in the afternoon, then bumped 100 miles by bus to star in a basketball game that night. Which is what we call the old collich spirit, or was it? All depends on who Bo was playing basketball for. Mickey Walker, who needs no identification here, is doing a song and dance in a Union City, N. J., burlesque house this week.

Fight tip: Tommy Farr is going to show Popper Baer more gloves than he can count Friday night. Katherine Hepburn of the films used to be quite some shakes as an amateur golfer. Don Lash, the track star, will wed Miss Margaret Mendenhall of Pendleton, Ind., in the Little Church Around the Corner here June 18. Walter St. Denis, master publicist for Mike Jacobs, heads for Chicago this week to steam up Louis and Thomas (which may be quite a job).

Glenn Cunningham must get from nine to 11 hours sleep each night to feel just right. Room 371 in the Fort Harrison hotel at Clearwater, Fla., holds most of this season's Brooklyn hopes. It is shared by Messrs. Van Mungo and Hazen Cuyler.

"Judge" Stephen McKeever was president of the Brooklyn Dodgers and he had plenty of the old iron in the bank. But he was as plain as an old shoe—and folks loved him for it. The "Judge" scorned such fancy things as box seats in his own park. He always occupied a rickety old kitchen chair in the rear of the grandstand, but overlooking the home plate. The chair had a special contraption rigged up on the side to hold the judge's glass of milk.

Since going under the banner of Joe Gould, the little guy with the big mouth, Tommy Farr has learned to pick his spots to do his plain and fancy popping off (of which there is plenty of both).

Rub mosquito bites with a lump of moistened soda or ammonia. The alkali in these helps prevent possibility of blood-poisoning, and reduces the irritation and swelling.

San Antonio, Tex.—Two official holdouts Pitcher Jack Knott and Catcher Billy Sullivan, were recorded at the St. Louis Browns' camp.

San Bernardino, Calif.—After finally reaching their training camp yesterday, the Pittsburgh Pirates found their practice field untouched by the flood, although the steam baths at Arrowhead Hot Springs were ruined by high water.

Orlando, Fla.—Owner Clark Griffith of the Washington Senators has ordered Manager Bucky Harris to "give the rookies every break." He referred specifically to first baseman Jimmy Waddell, who is trying to supplant Joe Kuhel, and outfielder George Case, who is after Al Simmons' job.

Sarasota, Fla.—They won't forget Footsie Marcum's arrival in the Boston Red Sox camp for a long time. The big fellow arrived yesterday morning, signed his contract, hit three-for-three in batting drill, then said he wasn't feeling well and went to bed. The doctor said he had the flu and a 103-degree temperature.

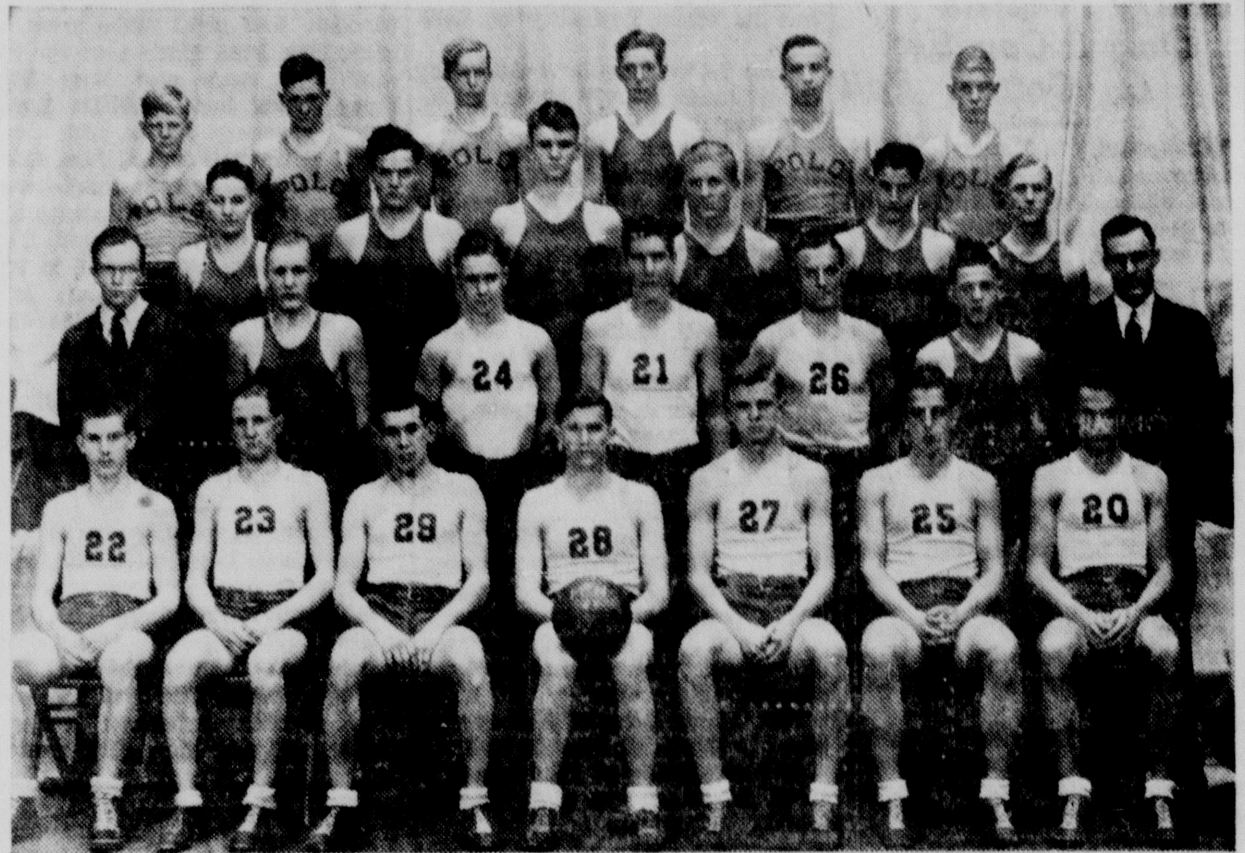

Bradenton, Fla.—With the arrival of Rabbit Warfield, and Hal Maggart, Jr., from the west coast, the Boston Bees had only one absentee Max West, today.

New Orleans—Oscar Vitt, Cleveland manager, has begun work on Bob Feller's delivery by teaching him a new and quicker motion for use with runners on base.

Tampa, Fla.—The Cincinnati Reds are hoping a new shipment of baseball will improve their batting practice performances. Their hits yesterday mostly went only a few feet. Bill McKechnie ran out of balls and borrowed some from President Jack Corbett of Syracuse, who rarg in some trick dead horse-hides.

Catalina Island, Calif.—Charley Grimm of the Chicago Cubs apparently is looking for youth in this year's lineup. Picking his team for the first intra-camp game, Grimm placed Phil Cavarretta at first, instead of Rip Collins and named

Clearwater, Fla.—Having purchased Dolph Camilli from the Phillies, The Brooklyn Dodgers' next job is to get him to sign a contract. The word from Business Manager Larry MacPhail is that he has offered Camilli a "material increase" over Philadelphia's highest offer.

Baton Rouge, La.—Manager Bill Terry of the New York Giants is highly pleased with the week-end showings of his young pitchers, Tom Eaker and Hy Vandenberg.

St. Petersburg, Fla.—Bill Dickey, New York Yankee catcher who hurt his side last week, is having his difficulties. He still wasn't able to hit yesterday although he took his turn at catching, and then someone stepped on his right hand while he was playing leapfrog for the benefit of photographers.

San Antonio, Tex.—Two official holdouts Pitcher Jack Knott and Catcher Billy Sullivan, were recorded at the St. Louis Browns' camp.

Ken O'Dea as first string catcher in place of Gabby Hartnett.

St. Petersburg, Fla.—Sammy Baugh indicated he would forget about pro football if he made the baseball grade with the St. Louis Cardinals. He worked out at short and second yesterday.

Pasadena, Calif.—Manager Jimmy Dykes of the Chicago White Sox, pleased with the condition of his players, plans an exhibition game with Pasadena Sunday.

Lakeview, Fla.—Mickey Cochran, who had trouble last year every time Detroit pitchers were knocked from the box, may make Boots Poffenberger a regular relief pitcher.

Lake Charles, La.—Although not pleased with the Athletics' fielding errors in their exhibitions, Connie Mack says he isn't giving up on Dario Lodigiani, Stan Sperry and Wayne Amber as second base candidates.

Biloxi, Miss.—The signing of Pinky Whitney has ended the Phillies' holdout worries, but he isn't likely to hold down third base in tomorrow's exhibition against the Giants. Leo Norris and Rookie Emmet Mueller will handle the job, at least during the first game.

Marion Miley To Tackle Francis Hadfield Today

Bellevue, Fla., March 8.—(AP)—Medalist Marion Miley of Fort Pierce faced Miss Frances Hadfield of St. Petersburg today in a first round match of the Bellevue women's open golf tournament.

Firing a 78 in the qualifying round yesterday, Miss Miley clipped two strokes from women's par for the course. Miss Hadfield shot a 91.

Defending titlist Dorothy Traung of San Francisco, with a qualifying 86, opposed Virginia Guilfoil of Syracuse, N. Y., who took an 83.

Patty Berg, winner of four tournaments this season, required 82 strokes and drew Mrs. Mark McGarry of St. Petersburg as her first round opponent. Mrs. McGarry had a qualifying 89.

Western Teachers Down Eastern For Basketball Title

Charleston, Ill., March 8.—(AP)—Western Illinois Teachers' basketball team held its second Little 19 conference court crown in four seasons today, after capturing the 1937 title by downing Eastern Teachers, 58 to 50, in last night's wind-up contest.

The victory gave Western a record of nine won and one lost. Had Western lost, the title would have gone to Southern Teachers of Carbondale, which completed its schedule with a record of six victories and one defeat.

The Western attack, which piled up a 32 to 26 margin at the half, was led by Fulk and Hughes.

120 PREP CAGE FIVES AWAIT SECTIONALS

Only Winners Will Progress Into State Meet

(By The Associated Press)
Survivors of an original entry list of 873 teams, 120 Illinois prep basketball teams marked time today until they began their important sectional tournament duels at 15 centers tomorrow night for the right to compete in the state finals at Champaign next week.

The "going" will be much harder than in the district tests. From those tournaments emerged both winners and runners-up, but in the sectional warfare the team which qualifies for a shot at the all-state prep basketball crown must be one which wins every game.

Some Upsets Probable
With the field narrowed down, every sectional skirmish appears packed with teams capable of staging unlooked for upsets. The Pekin tourney with such clubs as Pekin and Peoria Central entered, will produce plenty of thrills. The same goes for the Champaign tourney, which has as one entry the 1937 state runner-up, Decatur.

Joliet, the 1937 champion, was eliminated by Lockport 35 to 34, in the first round of the Chicago Heights regional tournament.

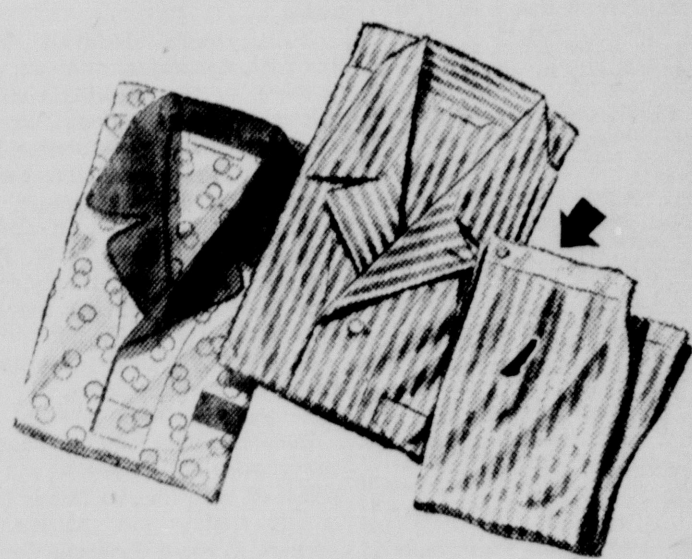

The 15 winners of sectional tournaments join with the Chicago city champion in the final at the University of Illinois March 17-19.

British women spend more than \$30,000,000 annually on beauty aids including creams, lipstick, powders, and perfumes.

The world's largest map of Canada measures 30 by 130 feet.

In addition, the Wolverines have prospects for points in every other event on the program. Watson beat 50 feet in the Illinois relay carnival Saturday and Gedeon tied the American record of nine seconds for 75 yards of high hurdles.

The Wolverines also demonstrated they were ready to give Indiana trouble in the running events. The Hoosier medley relay team of Mel Trutt, Sam Miller, Tommy Deckard and Jimmy Smith, galloped to a new American indoor mark of 10:14 and beat Michigan by only a yard.

2500 hours of better sleep in FAULTLESS NOBELT PAJAMAS

Since most of us spend about 2500 hours every year in bed, we want our "night life" to be comfortable. That's the reason you'll like the soft, pliable Nobelts waist . . . it permits you to relax more completely than was ever possible with the old-fashioned binding draw-string. Mother Not Sorry

She Killed Babes

Babylon, N. Y., March 8.—(AP)—Mrs. Margaret Thomsen, a young mother from the mud flats of West Babylon, accused of strangling her two small children, shook her head today when asked if she were sorry her babies were dead.

"Why should I be?" she asked, "those kids are better off."

Assistant District Attorney Lindsay Henry said she had confessed she throttled the children, Kathleen Elizabeth, 3, and Henry, Jr., 5 months old, in despair over their poverty.

She was held in the Suffolk county jail at Riverhead on charges of first degree murder.

Unidentified Man Shot By Ry. Agent

Peoria, Ill., March 8.—(AP)—An unidentified man about 28 years old was near death in a hospital today from gunshot wounds inflicted by two railroad detectives.

Arthur Hunter, 26, detective for the Toledo, Peoria & Western railroad, and Burt Crider, chief of the railroad's special police, said they surprised five men breaking a seal on a box car late night when they attempted to escape, the detectives fired with saved-off shotguns, they said.

The wounded man was struck in the chest, head and arms. His companions escaped.

U. S. Move To Occupy South Pacific Isles Opposed By British

London, March 8.—(AP)—President Roosevelt's move to take over the islands of Canton and Enderbury in the South Pacific caused a stir in the House of Commons today.

Arthur Henderson, Laborite, and Roland Robinson, Conservative, gave notice they would ask Prime Minister Neville Chamberlain tomorrow what the British government is doing to "preserve British rights."

The islands have been claimed as British territory by orders in council.

NAVY EXPANSION BILL PREPARED FOR DISCUSSION

See Debate Beginning In Congress Thursday On Measure

Washington, March 8.—(AP)—The House rules committee cleared the way today for debate to begin Thursday on the administration's billion dollar naval expansion bill.

The committee recommended 12 hours general debate limited to the measure, which would authorize construction of 46 new fighting ships, 22 auxiliary vessels and 956 airplanes.

The bill was given special status after Chairman Vinson (D-Ga.) of the House naval committee warned that failure to build the proposed ships would "imperil the security of this country."

Questioned closely by rules committee members concerning the need for the proposed naval expansion, Vinson asserted the United States would have to "stand absolutely alone" in defense of its possessions.

Minority Report Representatives Brewster (R-Me.), Church (R-Ill.), Cole (R-N.Y.) and Shannon (D-Mo.) filed a minority committee report last night contending that the new armament was unnecessary.

"Everything indicates," they said, "that this billion dollar increase in the present four billion dollar program is not a naval program but a diplomatic program, x x x."

"The circumstances indicate that it originated in the White House for the purpose of putting into the hands of the President the power to implement his foreign policies."

The President's policy in Asia, they said, leads to intervention in behalf of American citizens who continue "their operations in war zones contrary to international law."

"It is to pursue 'power politics' in Asia," the minority concluded.

The majority of the committee, which approved the naval program, 20 to 3, last week, said Sunday it was not a matter of national pride but one of "actual necessities of national defense."

SAYS RECESSION DUE TO MEDDLING OF GOVERNMENT

Washington, March 8.—(AP)—Merwin K. Hart of New York, president of the New York state economic council, told a Senate committee today the present recession "wouldn't be here if we let business work out its own way."

Testifying on the Borah-O'Mahoney bill to license corporations, Hart precipitated a debate on 1933 depression remedies after making an assertion that the "economic structure has toppled and is falling."

He said that was true in spite of government regulation that "has increased at an appalling rate for five years" and "after billions of the people's money have been spent."

Senator Borah (R-Idaho) asked Hart what, in view of his opinion on current regulation, caused the economic collapse in 1929.

"Over-expansion, I think, Senator," Hart said. "You can trace it back to the war."

"Do you think there should be no regulation, no control?"

"No, I think some regulation is salutary," Hart said.

He added he did not believe the Borah-O'Mahoney bill proposed a "sound and wise remedy for business ills. The bill would license all corporations engaged in interstate commerce and require them to live up to prescribed labor and other standards."

Funeral services were held on Thursday morning in St. Mary's Catholic church in Tampico for John J. Schaff Jr., who passed away Monday morning in a Galesburg hospital. A short prayer service was held at 8:30 for the family in the home. Rev. David Murphy of St. Plannen's parish church here, was in charge of the funeral. Tribute to the memory of the fine young man, whose sudden passing cast a pall of gloom over the surrounding towns, was paid by Rev. John Smith, assistant at St. Mary's church in Sterling. The many beautiful floral offerings and mass cards were a silent tribute to this young man. The pallbearers were former classmates and friends, Joseph Connelly, Frank Geoffrey, John Roark, Robert Puckett, Carl Lundquist and Richard Mitchell. Interment was in the St. Mary's cemetery in Tampico. John, the 19-year-old son of Mr. and Mrs. John J. Schaff, spent his early life in this vicinity, graduating from Community high school in Sterling last year. During his high school career he was active in athletics and a favorite among his classmates, being captain of the football team in his last year. He worked in Sterling for a while, then enlisted in the CCC camp six weeks ago and was sent to Elmwood camp, where he was stricken with pneumonia last week. He leaves to cherish his memory, his parents, Mr. and Mrs. John Schaff, two sisters, Mrs. Erwin Henry of Sterling and Miss Marjorie Schaff at home, and one brother Lawrence in Sterling, besides a large number of friends who extend sympathy to the bereaved family.

Enrollment for 1937 in the state 4-H club was 14,801 as compared with 12,688 in 1936. This is an increase of 16 per cent. Of these 14,801 members, 89 per cent of them completed their work, as compared with 86 per cent in 1936. There were 170 more clubs than in 1936 and an increase of 418 leaders and assistant leaders. Lee county finished up with 89 per cent completion.

In the Hamilton unit of the Home Bureau, which was organized in September, nine out of ten members are keeping home accounts. "This is a very good record," says Miss Elizabeth Colean, Lee county home adviser, "and we hope that these women will enjoy working with Mrs. Ruth C. Freeman, extension specialist in home accounts."

Late winter days provide an ideal time for putting farm machinery in shape prior to the arrival of the busy spring cropping season.

Winners of 4-H—

(Continued from Page 2)

Wittmus has been an active 4-H club member. He started with a pure bred Holstein calf as his project and now owns nine head of Holsteins registered in his name. In addition to his eight years of active work in the dairy project, Arnold has completed two years in the poultry project and two in the corn project. He has taken part in eighteen judging contests. Each year he has exhibited at the county and state fairs and out of a total of thirty-nine exhibits has won fifteen first prizes, eleven seconds and seven third prizes. This year as a Future Farmer of America he received the American farmer degree. Another honor conferred upon him was an opportunity to attend the national club congress at Chicago.

The local club of which Arnold is a member has held a total of fifty-one meetings since the year 1933 and he attended all but two of them. He has served his club as recreational chairman, reporter, secretary, president, and has also acted as 4-H leader for the past year. In addition to the above-mentioned offices Arnold served as the first president of the Harvard Community Boys' and Girls' 4-H club which was organized a year ago, and has held local and state offices in the F. F. A.

By winning state honors Opal Hetzer and Arnold Wittmus now become eligible to compete for national championship honors as the Holstein-Friesian Association will select a National Champion 4-H Club girl and boy from the list of state champions for 1937.

MANY NEW VOTERS
Chicago—(AP)—Alexander J. McKay, chairman of the board of election commissioners, announced that more than 78,000 new names were added to the voting lists in registration Saturday at neighborhood polling places in Chicago and Cook county. He said more than 74,000 of them were in Chicago.

TROOP 60 PRINTS FIRST ISSUE OF SCOUT BULLETIN

Boy Scout Troop 60 of the First Baptist church releases its first issue of the "Scout Bulletin" last evening. This bulletin is the official organ of the troop and is published once each month starting with this issue. It is being edited and published by the scouts themselves under the leadership of Scoutmaster M. M. Rosenberger. Copies of the bulletin are given to each scout registered, new recruits, possible candidates, members of the troop committee and other city and council officials.

Paul Dewey is editor and Anthony Kowalewski is assistant editor of the paper. The reporters are selected by the month and those for the current issue are: Duane Higgs, Kenneth Potts, Bob Miller, Floyd Egler and James Connaway.

Items of interest included in Troop 60's program for this month are: a knife contest and a project in patrol totem making. The former is a contest between members of the troop in which each scout is awarded points for attendance, payment of dues, advancement, recruiting new members, completing some item of Scoutcraft, etc. The scouts having the highest number of points on March 28 will be awarded a dandy sheath knife. The prize is being donated by Assistant Scoutmaster, Ray Collin. The scout

In the lead at the present time is Anthony Kowalewski. The patrol totem building project consists of the construction of a totem and patrol record of a piece of cardboard with the picture of each member of the patrol mounted and his personal and scout record written under it. These totems will be mounted in the meeting room to show the history of the scouts registered.

The troop has six recruits who are preparing themselves for tenderfoot rank and will be invested into the membership within the next couple of weeks.

"THE GOOD TURN"
Twice a busy city corner, And as I loitered there, I noted on the further side A lady with silvery hair. And as she gazed so helplessly At the traffic milling round, A straight young man in khaki Stepped up and touched her arm. With swift assurance he guided her In safety to the curb. My heart went out to this young knight In the winning of his spurs. In fitting closing to this good deed He bared his tousled hair, And on the hat crown I perceived A Golden Eagle resting there. —M. M. Rosenberger, Scoutmaster Troop 60, Baptist Church.

servations program during 1937 received 630 checks amounting to a total of more than \$83,000 on March 1. These were the first checks to be sent. The entire 1937 payment is in one check. Date of the arrival of other checks, clearing of which was made later, is not yet known.

Wether lambs usually sell at least one dollar a hundredweight higher than ram lambs.

The old routine of butchering on many Illinois farms has been altered during the past few months. Instead of finishing the job out on the farm, patrons of the new cold storage locker plants are taking the dressed carcasses into the lockers where they are aged, cut, frozen and stored. Kendall, DeKalb, Henry and Whiteside counties recently opened new plants.

From Sterling Manager Southwick of the National Reemployment Service is reported to have said: "In spite of the large number of idle men now on relief we have nearly twice as many farm jobs open as we have men to fill them. The jobs are all good ones in comfortable homes and in some instances tenant houses are available for married men. Most men
